

Pulsar® III-PE

Model Pulsar® III-PE Ergonomic high-production pressure blast cabinet

The ZERO Pulsar® III-PE is a high-production, ergonomic blast cabinet designed specifically to enhance productivity and efficiency by offering a safe and comfortable work station for production blast operators. The Pulsar® III-PE makes long production runs much easier by allowing workers to concentrate on achieving the desired surface treatment rather than on their aching back, legs, and feet.

Pulsar® III-PE Pressure Cabinet Features:

Safety

- Door interlock system interrupts blasting when either door is opened
- Optional time-delay locking system keeps doors locked after blasting stops
- Double-wall, insulated doors, reduce exterior noise
- Industrial-quality lift-off hinges allow easy door removal
- Full-opening doors maximize work chamber capacity and eases loading large parts
- Full-length, neoprene-on-fabric gloves protect operator
- Ceiling light fixture maximizes window view area and offers commanding view of interior

Productivity

- Unique air logic system maximizes air and media flow for blasting
- ASME-code pressure vessel, 1.0 cu ft capacity, with 1/2" piping
- Industrial-quality, coupled two-braid blast hose and tungsten carbide nozzle
- Reverse-pulse cartridge dust collector evacuates spent media and ensures optimal visibility for blasting; traps 99.7% of dust down to 0.5 micron
- Adjustable chrome latches seal doors tight through years of service

Convenience

- Tilt-out window allows tool-free glass changes in minutes
- Easy-to-reach pressure regulator, gauge, and electric switch
- Built-in air gun conveniently located inside allows part blow-off inside cabinet
